

## She's A Queen Bee

©2018 Tim Harrison and Second Avenue Songs

She's a queen bee, she does not need a king,  
She's a queen bee, she does not need a thing  
You can buzz for awhile but you maybe feel some sting.

She's a queen bee, she's got her own little hive,  
She's a queen bee, she knows how to survive  
You better make a lot of honey, if you want to stay alive.

She's a queen bee, there is no rest,  
She's a queen bee, she's in charge of her the nest,  
You can hang around a while,  
But remember that you're just a guest,  
You can buzz around a while,  
But remember that you're just a guest,  
You can stay around for a while,  
But remember that you're just a guest.
